

## Hogwarts Topic Web- Summer 2 Term 2017

*It is our choices that show who we truly are, far more than our abilities.*

### English

We are going to be reading the Cornish tale 'The Mousehole Cat.' We will follow the story and meet the characters in the wonderful adventure tale. We will then write our own tale using Talk4 Writing and Slow Writing techniques. We will then create an information booklet all about the River Nile using our knowledge from Topic lessons.

### Science

We are learning all about sound. We will be learning about how sound is made, why it is made and how we hear it. The children will carry out a fair test using the post-it note method.

It is our trip to Chester Zoo this half term that links to our learning from last half term - looking at animals and their habitats.

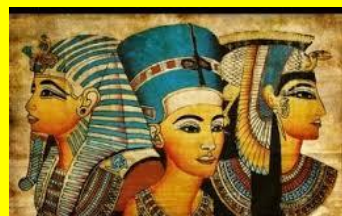

### Music

In Music, we will be singing and signing.

### PSHCE

We will be looking at how to be more responsible learners, particularly focussing on how we treat others and how that makes them feel.

### Summer 2

### Physical Education

We will be developing our athletic skills in our PE lessons and practising our striking and fielding skills.

### RE

The religion we will be learning about is Judaism.

### Maths

This half term we are learning about shape, angles, time and money. Throughout the half term, we will have key skill lessons focusing on our non-negotiables for the year group we are working on. We will continue with Big Maths to develop our mental maths skills. We will also be using 'Tackling Tables' to help us learn our times tables.

### Creative Curriculum

Our Topic will focus on Water. We will look at Ancient Civilisations and how they relied on different sources of water.

We will then study Ancient Egypt, learning all about their way of life and using our historical skills to find reliable sources of information.
