Dear Sir or Madam,

Re: Keepmoat Homes Next Phase of Development

Keepmoat will soon be starting to build its next phase of new homes in Burnley Wood. These will be located on the cleared sites around Crowther Street and the area between Parliament Street and Springfield Community Primary School.

The building works will mean that the main pupil and parent access for the school, facing towards Crowther Street, will be unusable from the forthcoming half term holiday until after the Christmas holidays.

During this period, please use the alternative school access on Oxford Road which is identified on the enclosed plan.

The area between Parliament Street and the school will also be unavailable for parking and pupil drop-off from half term on a permanent basis as new homes are being built here.

As part of the building works, a new path is to be installed connecting the school gate to Crowther Street. This will only provide access from Crowther Street – it will no longer be possible to reach the school gate from Parliament Street by going down the side of the Burnley Wood Medical Centre.

Should you wish to find out more about the new development, please visit the Keepmoat sales centre at the junction of St Stephens Crescent and Oxford Road, which is open 10am – 5pm Thursday – Monday.

Yours sincerely,

ALEX MAYNARD
