

Hogwarts Topic Web- Spring 2 Term 2017

It is our choices that show who we truly are, far more than our abilities.

English

We are focussing on persuasive texts this half term, as we are continuing from last half term. We will also be writing non-chronological reports in class.

As it is our Easter Production this half term, we will be developing our speaking and listening skills.

Science

We are going to continue learning about Electricity as part of our STEM project. Our STEM project is to create a car that is moved using an electric motor. All the children will work in groups to design a car and create it alongside the electric circuit.

In Science, we will be learning all about our teeth and how to care for them. We will also learn about our digestive system.

Music

In Music, we will be learning our Easter production songs.

PSHCE

We will be focussing on what our responsibilities are to ourselves, our family and our friends.

Map Skills

Physical Education

We will be developing dance skills in our PE lessons and going swimming every week.

RE

The religion we will be learning about is Christianity.

Maths

This half term we are learning about roman numerals, Place Value, position and movement and multiplication. Throughout the half term, we will have key skill lessons focusing on the four operations. We will continue with Big Maths to develop our mental maths skills. We will also be using 'Tackling Tables' to help us learn our times tables.

We have also introduced Maths of the Day to the children, which will get them active whilst learning a new skill in Maths.

Creative Curriculum

Our Topic will focus on Map skills. We will be using DigiMaps to locate different features on a map. We are also going to learn about how to read a grid reference and follow a map.

In Music, we will be learning our Easter production songs.
