

Hogwarts Topic Web- Summer 1 Term 2017

It is our choices that show who we truly are, far more than our abilities.

English

We are going to be using slow writing to recreate a folk tale. We will be reading the tales from the Brer Fox and Brer Rabbit collection. We will practise our Reading Detective skills as well as our ability to read out loud.

We will also look at poetry on a theme. We will read with intonation and expression.

Science

We are learning all about Living Things and their Habitats. We will carry out observations using the outdoor area, make notes with a partner and talk about our observations.

We are also going to look at the impact of deforestation in the Amazon Rainforest and talk about the importance of conservation.

Music

In Music, we will be learning singing games.

PSHCE

We will be looking at how to be more responsible learners, particularly focussing on Growth Mindset and seeing how it improves our mood.

Summer 1

Physical Education

We will be developing our athletic skills in our PE lessons and practising our striking and fielding skills.

RE

The religion we will be learning about is Judaism.

Maths

This half term we are learning about division, multiplication, shape and coordinates. Throughout the half term, we will have key skill lessons focusing on our non-negotiables for the year group we are working on. We will continue with Big Maths to develop our mental maths skills. We will also be using 'Tackling Tables' to help us learn our times tables.

Creative Curriculum

Our Topic will focus on Chester Zoo and Conservation. We will learn all about the first zoo without bars in Britain, carrying out research on George Mottershead and the Oakfield Estate.

This will link with our upcoming trip to Chester Zoo in June.
