

## The BFG's Homework Web - Spring Term

### Aim BIG to be BIG!

### English

You will have spelling homework each week. You are also expected to read at home every week, with the expectation of answering at least one quiz a week in school.

### Maths

You will have an arithmetic test each week. You have 30 minutes to answer the test, it will be due back into school a week after it is sent out.

You will also have a times table test each week and therefore are expected to revise these at home.

Over the next term, you must complete the weekly English and Maths homework that will be sent home on a Monday/Tuesday and must be returned by the following Tuesday. This will take you no longer than one hour a week, plus 30 minutes of reading a night.

You must also choose one other project to complete. You are being given a substantial amount of time to complete a project, so I hope you can produce something that is high quality and interesting.

We will be holding a home learning sharing session in school, following the half term heroes' assembly on Friday 5<sup>th</sup> April, so all homework must be handed in by that week - feel free to be as creative as you can - We can't wait to see what you produce! Enjoy! ☺

### History

Your homework enquiry is to identify and describe the countries that currently belong to the Commonwealth and explain the purposes and benefits of being part of this organisation. You can present this in any way you like.

### Geography

Your homework enquiry is to investigate: 'Why was the Three Gorges Dam built across the Chang Jiang (Yangtze River) in China?'

### Science

Create a model of the heart. All the circulatory system. Label this and ensure it has a full explanation of what each part does.

### DT

Plan and make a savoury dish at home and document it. We will be doing this in class as well. Make it as healthy as possible.
