

Hogwarts Topic Web - Spring Term 2019

It's our choices that show who we truly are, far more than our abilities.

English

Our English this term links with our history topic of the Anglo-Saxons. This will give us opportunities to explore a range of fiction and non-fiction texts. While investigating why the Romans left Britain and how Christianity was introduced to the people of Britain, the children will interpret a range of historical evidence to try to obtain a better understanding of that period of British History.

Our class novel (Anglo-Saxon Boy) follows the life of a boy during the Anglo-Saxon period.

Science

During the first half term, we will be learning about animals including humans. This includes learning about food chains and the digestive system.

Before Easter, we will switch our focus towards states of matter and the children will have the opportunity to investigate how some substances can change from a solid, liquid or gas.

Computing

Creating games and puzzles through coding and programming.

PSHCE

Thinking about how to work out the steps to take to achieve a goal even if they have been disappointed before.

Hunted

Physical Education

Swimming every Tuesday afternoon and gymnastics on Mondays.

RE

How do religious families and their communities practise their faith and what contributions does this make to society?

Music

Pulse, pitch and rhythm.

Maths

This term we will be focussing on multiplication and division, more specifically multiplying and dividing 3-digit number by 1-digit numbers. To do this, the children will need to apply their knowledge of place value and their times tables.

After this, we will move onto learning about fractions and investigating how fractions link to decimals and vice versa.

Geography

Why do so many people in the world live in megacities?

Art

Street art project.

Design Technology

We will research, plan, design and create a 3D product from 2D pieces.

Spanish

Colours and discussing where we live.
